

# Monitor your stock water remotely.

## Observant Remote Tank Monitoring Kit

TANK LEVEL

89% full

ALERT WHEN LOWER THAN

50%

Check any number of tanks anywhere you can access the internet.

Receive email or SMS alerts when stock water is running low.

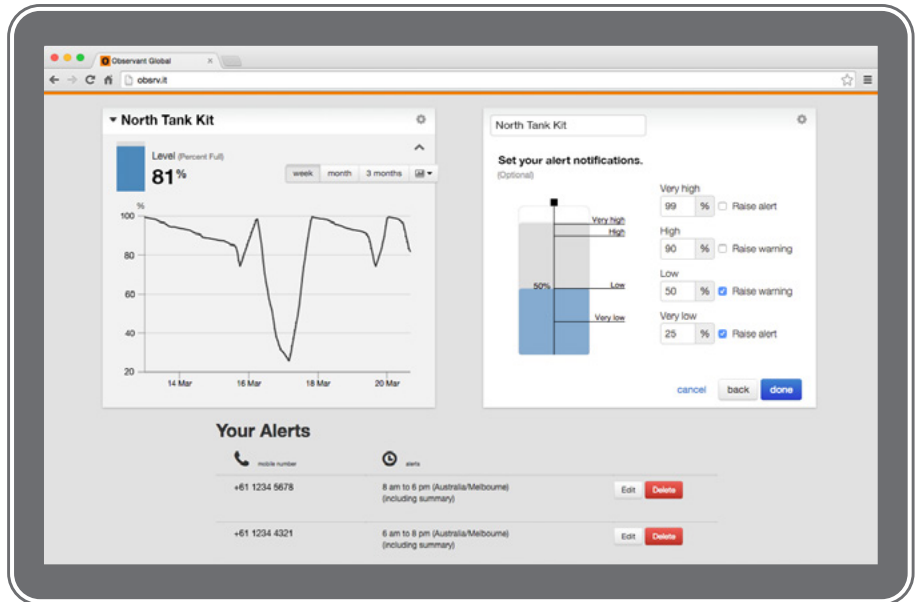

Suitable for properties with limited mobile network service.

# Observant Remote Tank Monitoring Kit

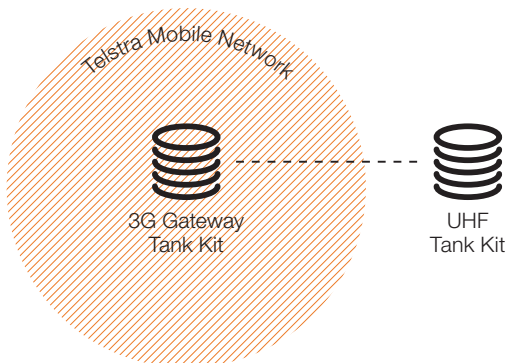

## Access your water levels from anywhere

The Observant Remote Tank Monitoring Kit provides you a complete water level monitoring solution. In many parts of rural Australia the Telstra Mobile Network is limited or not available. To ensure you can monitor all of your stock water points, Observant provides the Remote Tank Solution. First install the 3G Gateway Tank Kit within Telstra's coverage\*, then install the UHF Expansion Kit(s) outside of mobile network coverage.

- 1 Current Tank Level**  
Continually checks the tank's level and updates every half an hour.
- 2 Historical Data**  
Graph water usage trends with weekly, monthly and 3 monthly historical data.
- 3 SMS/Email Alerts**  
Receive SMS or email alerts when your tank level is outside its normal range.

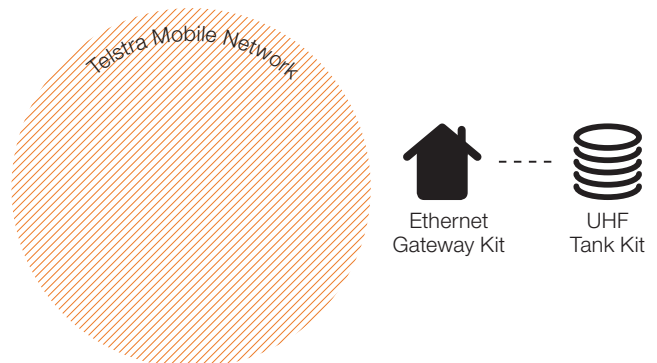

Observant Global™ image is for illustrative purposes only

### Partial Telstra Mobile Network Coverage

- Install the 3G Gateway Tank Kit within Telstra's coverage.
- Install the UHF Expansion Kit(s) outside of coverage.

### No Telstra Mobile Network Coverage

- Connect the Ethernet Base Station to the internet.
- Install the UHF Expansion Kit(s) outside of coverage.

### Important information

The DIY tank kit is recommended to only be installed on tanks with steel or poly roofs that are in good condition and safely accessible by a ladder. As the kit is solar powered ensure it's exposed to direct sunlight most of the day. Ensure the kit is within UHF range of the 3G Gateway Tank Kit (speak to your Observant Dealer to assist you with setting up a reliable UHF Radio network). If your property has Telstra coverage but no tanks within range, we can provide a Gateway Kit without a level sensor.

For an alternate tailored solution, contact your authorised dealer today.
